

## XANGO AERIS™ FAQ: Eye Renewal Duo

**Q: Can I use XANGO AERIS Eye Renewal Duo on my face and neck?**

**A:** XANGO AERIS Instant Eye Gel is specifically formulated to target the skin around the eye; however, XANGO AERIS Eye Renewal Concentrate has beneficial properties to help reduce expression lines and wrinkles on your face and neck

**Q: How long do I wait between using XANGO AERIS Eye Renewal Concentrate and XANGO AERIS Instant Eye Gel?**

**A:** Give XANGO AERIS Eye Renewal Concentrate a few minutes to absorb into the skin before applying XANGO AERIS Instant Eye Gel for the ideal firming effect. Any makeup should be applied afterward.

**Q: A white film appears after using XANGO AERIS Instant Eye Gel. What should I do?**

**A:** First, try adjusting the amount of product you use. (You don't need a lot.) Alternately, you can moisten with XANGO AERIS Eye Renewal Concentrate and massage visible product into the skin.

**Q: How often do I use XANGO AERIS Eye Renewal Duo?**

**A:** For maximum benefits, use XANGO AERIS Eye Renewal Concentrate twice daily: every morning and every evening as a part of your daily skin care regimen. XANGO AERIS Instant Eye Gel can be used daily or as needed for an instant firming & lifting effect. Most people prefer to use Instant Eye Gel daily in the morning. Others may prefer to use it occasionally when they need the instant support.

**Q: Do I have to continue using XANGO AERIS Eye Renewal Duo?**

**A:** Optimal results come from ongoing use. Based on the clinical trial, the greatest benefits are experienced after using the products continuously for 6-12 weeks.

**Q: What results can I expect to see from using the XANGO AERIS Eye Renewal Duo?**

**A:** Immediate improvement in fine lines and wrinkles (as early as a few minutes, lasting for several hours). Long-term improvement, including:

- Improvement in under-eye bags (as early as 15 days)
- Improvement in deep wrinkles (slight reduction in 2 weeks, noticeable difference in 4-8 weeks)
- Improvement in pigmentation and dark circles (8 weeks)
- Increased skin elasticity (4-8 weeks)
- Improved skin moisturize and hydration (4-8 weeks)

**Q: What is AMP technology?**

**A:** Innovative AMP technology offers a combination of Antioxidants, Micronutrients and Peptides clinically proven with 5-in-1 action:

- Visibly reduces the appearance of wrinkles
- Helps firm and tighten aging skin
- Stimulates circulation for brighter, more radiant skin
- Supports elasticity for smoother, more youthful skin
- Boosts hydration for softer, fresher appearance

**Q: My skin is very sensitive. Can I use XANGO Aeris Eye Renewal Duo?**

A: While XANGO Aeris Eye Renewal Duo is designed to be gentle, people have different reactions to skin care products. Sometimes the products you have been using for months and years can cause a reaction when a new skin care product is introduced. If you are concerned that you may experience an adverse reaction, apply the product to the inside of your forearm prior to using it on your face, check for any signs of sensitivity.

**Q: I'm experiencing sensitivity to the XANGO Aeris Eye Renewal Duo. What should I do?**

A: First, find out which product is causing the sensitivity and reduce the frequency of use and make sure to keep skin moisturized. If sensitivity continues, stop using the products for a few days to give skin time to adjust and then begin using the products again in small amounts. If the problem persists, discontinue use.

**Q: Are the formulas safe to use after facial treatments from a spa or a dermatologist?**

A: They are completely safe with light facial treatments, but more abrasive treatments (chemical peel, microdermabrasion and hydrafacial treatments) will cause your skin to be extremely sensitive for some time. Suspend your use of XANGO Aeris Instant Eye Gel for a few days or until your skin feels normal.

**Q: Is the XANGO Aeris Eye Renewal Duo tested by dermatologists?**

A: Yes. XANGO Aeris Eye Renewal Concentrate and XANGO Aeris Instant Eye Gel are tested by dermatologists.

**Q: Is the XANGO Aeris Eye Renewal Duo gluten-free?**

A: XANGO Aeris Eye Renewal Concentrate contains wheat. However, the Aeris Instant Eye Gel is gluten-free.

**Q: Does the XANGO Aeris Eye Renewal Duo contain soy?**

A: No. XANGO Aeris Eye Renewal Concentrate and XANGO Aeris Instant Eye Gel do not contain soy.

**Q: Does the XANGO Aeris Eye Renewal Duo contain lecithin?**

A: No. XANGO Aeris Eye Renewal Concentrate and XANGO Aeris Instant Eye Gel do not contain lecithin.

**Q: Does the XANGO Aeris Eye Renewal Duo contain peanuts?**

A: No. XANGO Aeris Eye Renewal Concentrate and XANGO Aeris Instant Eye Gel do not contain peanuts.

**Q: Is XANGO Aeris Eye Renewal Duo tested on animals?**

A: No. XANGO Aeris Eye Renewal Concentrate and XANGO Aeris Instant Eye Gel are not tested on animals.
